

Echo Pulse

**You run the business.
We run the content.**

Everything you publish, handled by one studio.

You hit record, we do the rest.

THE PITCH

You run the business. We run the content.

Founders, coaches, business owners, and real estate agents lose 20 to 30 hours a week to content operations they should not be doing themselves. Editing clips. Writing posts. Briefing freelancers. Reviewing drafts that still miss the mark. Coordinating between five vendors who do not talk to each other.

EchoPulse replaces the video editor, the social writer, the ad creative person, the web designer, and the developer with one team that has all five disciplines under one roof and one bill.

What you actually get back

- **20 to 30 hours** a week — the time you were losing to content ops
- **One bill** instead of five — fixed monthly, no surprise invoices
- **3-hour replies** inside every working day, not 24-48 hours
- **Unlimited revisions** — the standard, not the upsell
- **Owner-operated** — the person on the call is the person editing

Four promises that define everything.

01 · Owner-Operated

The person you book the call with is the person editing your reels, writing your launch page, and pushing your code. No account managers. No juniors. No "I will check with the team."

02 · 3-Hour Replies

Inside every working day. Not "we will get back to you within 24-48 hours" — actual real-time responsiveness for direction, revisions, and questions.

03 · Re-Done Until Right

Unlimited revisions are the standard, not the upsell. The bar is not "client signed off" — it is "would you publish this under your own name without flinching."

04 · No Agency Overhead

Junior labor, account managers, project managers, office rent, sales commission — none of it exists here. The same quality work lands at less than half the price.

"Most agencies sell deliverables. We sell taste — and taste is shown, not described."

Four operators, four reasons.

Founders building a personal brand

SaaS founders, indie hackers, agency owners who realised their face IS the GTM. Need a consistent flywheel of video + LinkedIn + blog + ads, in their voice, without becoming a full-time content team.

Coaches scaling beyond 1-on-1

Course creators, group programs, masterminds. Their offer lives or dies by content distribution — and they cannot afford to write every post themselves while running the actual business.

Business owners running real operations

E-commerce, services, local businesses doing 7-figures+ who need marketing without hiring an in-house team of five — and one studio that talks to their CRM, ad team, and developers in one thread.

Real estate agents and brokerages

Listing reels, agent personal brand, neighbourhood content, lead magnets. A dedicated Pune-only on-site shoot tier exists for this segment — we come with cameras to your sites for full days of footage.

Seven disciplines, one team.

Each service is its own studio. Each runs the same engine — owner-operated, 3-hour replies, unlimited revisions — applied to a specific medium.

01 · Video Editing

Reels, Shorts, TikToks engineered for mobile feed. Long-form YouTube (vlogs, educational, sponsored). Podcast full episode + highlight clips. Course module editing. Cinematic brand films and property tours. Motion + sound design. **48-hour standard turnaround.**

02 · LinkedIn Ghostwriting

4 to 5 posts per week, story-driven and opinion-driven, never generic listicles. Deep-dive carousels. Engagement drafts on prospect and influencer posts. Profile optimisation. Monthly performance review. **Brand brief document yours forever.**

03 · Blog Production

1,500 to 3,000 word long-form blogs. Real research, real source links, real customer examples. SEO + meta pack with every post. Distribution pack: LinkedIn post, Twitter thread, newsletter blurb, cold-email pitch, 3 quote graphics. **Reads like a human wrote it because one did.**

04 · Ad Creatives

Static creative, video ads, hook variants, landing-page-matched creative. Built for paid social — Meta, LinkedIn, TikTok, YouTube. Variant testing discipline baked in. Briefs feed back from actual ad-account performance, not vanity metrics.

05 · Websites & Funnels

Conversion-focused websites and landing pages. Custom design + build, not a Webflow drag-drop. Full responsive systems with mobile-first care. Conversion tracking + A/B tests wired in day one. **Quarterly rebuilds included on Full System.**

06 · Automations

Zapier, Make.com, n8n flows. CRM wire-ups. Lead routing. Email sequences. Internal ops automations that take recurring 30-min tasks to zero. Stack-agnostic — we work with what you already use.

07 · Apps & Software

Custom web apps, internal tooling, MVPs. Production React/Next.js/TypeScript. For founders who need a small app built to test a thesis or replace an expensive SaaS subscription. **One small app**

per quarter included on Full System.

Three doors in.

Every retainer auto-localises to your region. Prices below show USD for simplicity. India clients pay in INR (PPP-adjusted). UK, EU, Canada, Australia pay in their local currency at point-of-sale.

PILOT 14-day paid trial \$299 one-off · 14 days	GROWTH Monthly · most popular \$1,997 per month	FULL SYSTEM All-in. Fixed scope. \$4,997 per month
--	--	---

Pricing in your currency

Every price auto-localises based on your region: India in INR, United Kingdom in GBP, European Union in EUR, Canada in CAD, Australia in AUD. Switzerland gets a CHF view with a high-PPP premium. United States and the rest of the world see clean USD with no FX surprises at checkout.

Pune on-site shoots

A dedicated tier visible only to Pune visitors. In-person production day with our crew on the ground — listings, agent reels, brand films, podcast video. Required phone field, 4-hour callback promise, scope and price confirmed on the discovery call before any payment.

WHO BUILT THIS

Lakshya Soni.

Founder · EchoPulse · Pune

Editing video professionally since age 18. Across formats at a Canadian production studio. Marketing lead at a Canadian SaaS company. Frontend engineer shipping production code in React and TypeScript.

Five disciplines stacked in one operator. EchoPulse is what that operator does for businesses that need all five but cannot justify hiring five people.

The disciplines

- Video editing — short-form, long-form, podcast, cinematic brand films
- Motion design + sound design + colour grading
- Content strategy — LinkedIn, blog, ad creative, distribution
- Web design + frontend engineering (React, Next.js, TypeScript)
- Marketing operations — analytics, automations, CRM wire-ups

How to start

Book a 45-minute discovery call. We review what you are publishing today, map a 30-day plan, and put numbers in writing. Hire after, or not. No pressure, no commitment, no credit card.
